

The purpose of this newsletter is to keep our neighbours updated and informed in respect of progress of construction activities on site and any planned up and coming works

PROGRESS TO DATE

- Plots 1 - 5 are near completion and will be ready for handover to Gannochy in October
- Progress is going well throughout the site with other plots near completion - including retaining walls, driveways, paths and gardens being formed
- We have 43 of 48 timber kits in progress with all trades progressing well with works

PROJECT LOOK AHEAD

To erect the last remaining timber kits on site and to continue works on all other plots both internally and externally, including connecting services as groundworks progress throughout the site.
