

# Gannochy New Housing Newsletter

## Issue 1 – July 2018

This is the first newsletter from the Gannochy New Housing construction team. The purpose of the newsletter is to keep our neighbours updated and informed in respect of the progress of construction activities on site, and to provide a look ahead to planned up and coming works, particularly those that may affect surrounding properties. It is early days for the project therefore this newsletter is fairly brief but they will become more detailed as the project progresses.

### PROGRESS TO DATE

- Set up site
- Commence service diversions
- Site scrape

### PROJECT LOOK AHEAD

Roads and sewer works to progress shortly with the main service infrastructure commencing thereafter including the diversion of a water main. Temporary traffic lights will be required on Gannochy Road at certain points.
